Bois d'Arc Lake eNewsletter: Updates on Work Underway

Welcome to the first e-newsletter for the Bois d'Arc Lake project.

Over the next several years, we will use this e-newsletter to provide regular updates on the phases, progress and potential impacts of this crucial project. We are committed to keeping you informed as our contractors complete both the first major Texas lake in thirty years and all other projects needed to deliver its water to North Texas Municipal Water District users.

Feel free to invite other interested community members to sign up at <https://boisdarclake.org/enewsletter-signup/>.

Bois d'Arc Lake Website Launched

Our new website on the Bois d'Arc Lake project was launched just last month with additional information on Texas' newest lake coming to Fannin County.

Check it out at BoisdArcLake.org.

We will update this site regularly with any additional information on construction activities, future lake benefits and eventual recreation opportunities. We will also be posting regular monthly reports on project progress to the site (see below).

Bois d'Arc Lake Monthly Reports

For regular, updated information on the various projects needed to create/deliver water from Bois d'Arc Lake, check <https://boisdarclake.org/library/recent-lake-updates/>.

March's report is now online. Some highlights of work underway include:

- Ongoing construction of the new FM 897 bridge and spreading of earth for the roadway.
- Completing the second concrete pour for a 110-foot intake tower to collect and move water from the future lake to the pump station, where it can be moved to treatment.
- Planting of approximately 1,235,996 new trees by mid-March at a designated mitigation area.

For more photos of construction, visit [our photo gallery at BoisdArcLake.org](http://BoisdArcLake.org).

Lake Facts at a Glance

- STORAGE CAPACITY** = 367,609 acre-feet
- LAKE SURFACE AREA** = Approximately 26 square miles
- SUPPLY** = Firm yield of 108 million gallons of water per day
- RECREATIONAL USE** = boating, fishing & more
